WHERE HOME LUXURY, AND TRANQUILITY MEET

**Y**our home should be more than the space inside your house's walls; no matter how wonderful the building is, its location and surroundings have an effect on your quality of living. Your environment, your community, can be as restorative, distinctive, inspiring and inviting as your house should be ... if that community is Hallbrooke.

Unlike any other Norman development, Hallbrooke remains close to nature – it's home to mature trees, ponds, rolling hills, waterfalls, greenbelts and walking paths – yet it's still convenient to schools, shopping and attractions, located only minutes from downtown Norman, the heart of OKC and Tinker AFB.

The first-class clubhouse is a popular setting for receptions, weddings and other parties, while the community swimming pool is large enough for exercising, playing or lounging.

This truly is a unique community; so much so that no two of its homes are identical. Hallbrooke builders include Armstrong Homes, Better Built Homes, C.A. McCarty Construction, Custom Builders of Oklahoma, C&C Builders, David Caddell Homes, DaVinci Homes and Muirfield Homes. Several beautiful examples of their work have been featured in the Festival of Homes and Assistance League Home Tour.

And the best part is that there's still room for new residents to join the community. Multiple lot sizes are now available for new construction from Hallbrooke developer Trey Bates.

Hallbrooke is located in Norman on the south side of Rock Creek Road, between 12th and 24th Avenues NE – look for the sign, or follow the atmosphere of tranquility amid natural splendor. And welcome home.
